

WILLIAM T. ANDERSON JR.
Curriculum Vitae

AREAS OF SPECIALTY

- Stable Isotope Biogeochemistry
- Global Change/Earth System Science
- Paleoclimatology

PERSONAL INFORMATION

Address: Earth & Environment Department
Marine Science Program
Florida International University
BBC-Campus, MSB357
North Miami, FL 33181

Tel: (001) 305.919.4025
e-mail: andersow@fiu.edu
Born: 26 July, 1970 - Kansas City, USA

EDUCATION

Swiss Federal Institute of Technology (ETH-Zentrum), Doctor of Natural Sciences (Doktor der Naturwissenschaften), January 2000. Thesis topic: Calibration of high-resolution terrestrial isotopic records of recent climatic change: Implications for understanding paleo-atmospheric circulation changes. Thesis advisors Prof. J.A. McKenzie and Dr. S.M. Bernasconi.

Syracuse University: M.S. Geology, September, 1995. Thesis topic: Deglacial-Holocene stable isotope stratigraphy of Seneca Lake, New York: Implications for climate change and the Hypsithermal. Thesis advisor: Prof. H.T. Mullins.

University of Kansas: B.A. Geology, July, 1992. Advisor Dr. J.D. Walker.

FULL-TIME ACADEMIC EXPERIENCE

Associate Professor, August 2006 to present, Earth & Environment Dept./Southeast Environmental Research Center, Florida International University, Miami.

Assistant Professor, January 2000 to August 2006, Earth Sciences Dept./Southeast Environmental Research Center, Florida International University, Miami.

Director of the SERC Stable Isotope Laboratory, January 2000 to present, Florida International University, Miami.

PART-TIME ACADEMIC EXPERIENCE

Stable Isotope Laboratory, Geologisches Institut, ETH-Zentrum - *Research Assistant*, October 1995 to December 1999. Assisting in general laboratory operation and method development with continuous-flow IRMS for oxygen isotopic analyses with J.A. McKenzie and S.M. Bernasconi.

Swiss Federal Institute for Forest, Snow, and Landscape Research (WSL) - *Research*, June-August, 1996, Tree core recovery and ring width evaluation with F. Schweingruber.

Limnological Research Center, University of Minnesota, Research Training Group - *Travelling Fellowship/Research Assistant*, Fall/94, Stable isotopic analysis of lake sediments from Seneca Lake, NY for paleoenvironmental/paleolimnologic evaluation with Emi Ito.

EMPLOYMENT RECORD AT FIU

Rank: Assistant Professor, Dates: January, 2000 to August 2006

Rank: Associate Professor, Dates: August, 2006 to present

PUBLICATIONS IN DISCIPLINE

Peer Reviewed Articles in Professional Journals - ISI CI: 483, ACI: 21.00 (as of 10/15/2012)

Swart, P.K., **Anderson, W.T.**, Altabet, M.A., and Bellmund, S., *in review*, A two year study of the nitrogen and carbon isotopic composition of Biscayne Bay, South Florida USA: Estuarine, Coastal and Shelf Science.

Anderson, W.T. and Gaiser, E.E., *in review*, Understanding paleoenvironmental change in Everglades wetlands: Journal of Paleolimnology.

Moses, C.S., **Anderson, W.T.**, Saunders, C.S., and Sklar, F., 2012, Regional climate gradients in precipitation and temperature in response to climate teleconnections in the Greater Everglades system of South Florida: Journal of Paleolimnology. *in press*.

Ellsworth, P.V., Sternberg, L., **Anderson, W.T.**, 2012, The role of effective leaf mixing length in the relationship between $\delta^{18}\text{O}$ of stem cellulose and water across a salinity gradient: Plant, Cell and Environment, *in press*.

INVITED SEMINARS AND SYMPOSIA

- 9/12/2012 Multiple approaches for understanding the sediment nutrient dynamics of a shallow hypereutrophic lake, Lake Jesup, FL, SERC Seminar, FIU.
- 9/10/2008 Stable isotope composition of plants from South Florida – Understanding changes in water level, Dendro-Science Research Group, WSL, Birmensdorf, Switzerland.
- 10/25/2007 Stable Isotopes of OM as proxy-records of paleoclimate change, Earth Sciences Dept., Florida International University, Miami.
- 5/15/2007 Oxygen and carbon isotopes in plants and reconstructing changes in hydrology, Rosentiel School of Marine and Atmospheric Science (RSMAS), Miami.
- 11/9/2006 Stable isotopic records from trees and plants in sub-tropical settings, understanding the roles of biogeochemistry and climate, Department of Earth and Planetary Sciences, University of Tennessee.
- 10/22/2004 Stable isotopic records in tree rings as indicators of the climatic and paleohydrologic changes in semi-tropical settings, James Cook University, Queensland, Australia.
- 10/06/2003 Isotopes in organic matter - O, D stored in lake sediment organic matter and tree rings, Earth Sciences Dept., University of Geneva (CH).
- 10/07/2003 Carbon and nitrogen isotopes in OM, Earth Sciences Dept., University of Geneva (CH).
- 2/18/2003 Plant carbon-water relationships - an isotopic understanding using carbon and oxygen stable isotopes, RSMAS, Miami, February 18, 2003.
- 10/03/2002 Advances and concerns about high resolution terrestrial isotopic reconstructions of recent past climate change, examples from Europe, and South & North America, University of Florida, Gainesville.
- 5/02/2002 High-resolution terrestrial isotopic reconstructions of recent past climate change, examples from Europe, South America, and North America, Dept. of Biology, University of Louisiana at Lafayette.
- 3/25/2002 Advances and concerns about high resolution terrestrial isotopic reconstructions of recent past climate change, examples from Europe, South American, and North American, GEOTOP and McGill University, Montreal.
- 2/02/2001 Approaches, calibration and validation of high resolution terrestrial isotopic reconstruction of paleo-precipitation using oxygen isotopes in organic matter – Trees and Lakes, Dept. of Earth Sciences, Syracuse University.
- 10/23/2000 High-Resolution oxygen isotopic record of recent climatic change from continental archives: Reconstructing the isotopic composition of precipitation, Dept. of Geology, University of South Florida, Tampa.
- 3/20/2000 Oxygen isotopic records of recent climatic change from terrestrial and lacustrine archives: Approaches, applications, and calibration, RSMAS, University of Miami, Miami.
- 4/15/1999 New approaches and applications of oxygen isotopes in organic matter for paleohydrologic and climate change reconstructions, Southeast Environmental Research Center, Florida International University, Miami.
- 4/12/1999 *Same talk as above*, Dept. of Geosciences, University of Missouri, Kansas City.
- 3/04/1999 New approaches and applications of stable oxygen isotope geochemistry for paleohydrologic/paleoenvironmental reconstructions from high-resolution proxy records (tree rings and lakes)Le Centre de Géochimie de al Surface, Ecole et Observatoire des Sciences de la Terre, University of Strasbourg, France.

- 1/26/1999 New approaches and applications of continuous flow isotope ratio mass spectrometry (CF-IRMS) to biogeochemistry, Swiss Federal Institute of Environmental Science and Technology (EAWAG), Limnological Research Center, Kastanienbaum (CH).
- 1/27/1996 Deglacial-Holocene stable isotope stratigraphy of Seneca Lake, New York state: Implications for climate change and the Hypsithermal, Swiss Sed Meeting, University of Fribourg, Fribourg (CH).
- 3/08/1996 Oxygen stable isotope record of Holocene climatic instability: Northeastern USA, Swiss Quaternary Group, University of Bern, Bern (CH).

WORK IN PROGRESS

Research

- Anderson, W.T.**, Scinto, L.J., Gaiser, E.E., Carroll, B., Quillen, A., Keller T.A. and Haberer, J, *in progress*, Paleolimnological investigation of Lake Monroe and Lake Harney in the St. Johns River Basin, Journal of Paleolimnology.
- Evans, S.L., **Anderson, W.T.**, Jochem, F.J., Fourqurean, J.W. *in prep.*, Inter-annual Variability in Carbon and Nitrogen Stable Isotope Signatures of Size-Fractionated POM from the South Florida Coastal Zone. (in preparation): Marine Ecology Progress Series.
- Kirby, M.E., **Anderson, W.T.**, Patterson, W.P., Burnett, A.W., and Mullins, H.T., *in progress*, Atmospheric circulation control on tree-ring $\delta^{18}\text{O}$ cellulose values from the Northeastern United States, Journal of Geophysical Research.

FUNDED RESEARCH

Total Funding breakdown - *as PI*: \$1.36 million, and as *co-PI*: \$733k, Total: \$2.10 million

- 2012 FIU Technology Program - Acquisition of a wave and current meter system for Oceanography, Marine, Earth and Environmental Sciences at BBC, PI Anderson, \$24k.
- 2011 NSF LTER FCE II - Climate and Disturbance Group (DBI-0620409), sub-account-PI Anderson, \$52k (yr 5 funding) end date 12/30/2011
- SFWMD - Soil characterization in selected Stormwater Treatment Areas – STA5, **co-PI Anderson** (with Scinto, as lead PI) \$50k. Awarded 03/30/2011.
- 2010 NSF WSC-Category 1-Linking freshwater inputs to ecosystems functioning and services provided by a large mangrove estuary, (WSC 1039223) **co-PI Anderson** (with Sukop, Bhat, Jaffe and Rehage), \$124k, end date 9/31/2012.
- SJRWMD – Assessment of the Cycling and Compartmentalization of Nitrogen and Phosphorus in Saturated Soils, Sediments and the Water Column in Lake Jesup after the opening of the new bridge along SR 46 (Phase II), **PI Anderson**, with Scinto, Thomas, Fugate and Corbet: \$121k.
- SFWMD – An investigation of climatic variability and its affects on hydrology and salinity within the Everglades and Florida Bay ecosystems, **PI Anderson**, \$25k, end date 9/30/2010.
- NSF LTER FCE II - Climate and Disturbance Group (DBI-0620409), sub-account-PI Anderson, \$56k (yr 4 funding) end date 12/30/2010
- NSF MRI R2 – Acquisition of the next generation IRMS and CRDS for the SERC Stable Isotope Laboratory, (OCE 0959722), PI **Anderson**, with Fourqurean, Heithaus, and Jaffe: \$328k
- FDEP - Southeast Florida Coral Reef Initiative (SEFCRI) Land-based Sources of Pollution Project 32: Using Cyanobacteria and Macroalgae Stable Isotopes as Anthropogenic Point and

- Non-Point Source Nutrient Indicators, **PI Anderson** with Valerie Paul (Smithsonian Marine Station at Ft. Pierce): \$50k
- 2009 SFWMD – An investigation of climatic variability and its affects on hydrology and salinity within the Everglades and Florida Bay ecosystems, PI Anderson, \$24k, end date 11/30/2009.
NSF LTER FCE II - Climate and Distrubance Group (DBI-0620409), sub-account-PI Anderson, \$54k (yr 3 funding) end date 11/30/2009.
- 2008 SJRWMD – Assessment of the cycling and compartmentalization of nitrogen an phosphorus in saturated soils, sediments and the water column in Lake Jesup, Florida, USA (#25044), **PI Anderson**, with Scinto, Thomas and Fugate: \$195k
NSF LTER FCE II - Climate and Distrubance Group (DBI-0620409), sub-account-PI Anderson, \$38k (yr 2 funding).
Kauffman Foundation Professor Award – Entrepreneurial Academy, FIU. Development and marketing of novel biogeochemical isotopic methods for the Stable Isotope Laboratory (University Recharge Center) as a tool for environmental managers and consultants for near shore marine and fresh water ecosystems total: **PI Anderson**, \$15k
- 2007 NSF LTER FCE II – Supplement funding for LIDAR investigation of both SRS and TS transects, **co-PIs Anderson** and Zeng (IHRC FIU), \$10k.
St. Johns River Water Management District (SJRWMD) – Assement of N-fixation in Lakes Monroe and Jessup FL (SK42812), **co-PI Anderson** with Sincto (*lead PI*), Ikenaga, Sinigalliano, Thomas. \$250k.
NSF LTER FCE II - Climate and Distrubance Group (DBI-0620409), sub-account-PI Anderson, \$47k (yr 1 funding).
- 2006 Department of the Interior, Biscayne National Park. Supplemental Sampling of Nitrogen Compounds for Determination of Non-Degradation Outstanding Florida Water Nutrient Criteria in Biscayne Bay. Collaborative project with RSMAS. FIU **PI Anderson**, \$30k (FIU's budget). Dates 1/1/06 to 9/30/07.
- 2005 Department of the Interior, Critical Ecosystem Studies Initiative (CESI) - Understanding *Cladium jamaicense* Dynamics over the last century in Everglades National Park, WC-3B using simulation modeling and paleoecological data, **co-PI Anderson** with Saunders, Childers, and Jaffe, \$115k.
- 2004 St. Johns River Water Management District (SJRWMD) – Lake Harney sediment accumulation and past water quality (SH45213), **PI Anderson** with Gaiser and Scinto, \$94k.
Provost's Office and FIU Foundation Summer Research Competition (2004) - A New Tool for Reconstructing Past Water Levels in South Florida Wetlands: Implications for the Greater Everglades Restoration, **PI Anderson**, \$5k
Australian Research Council, Research Grant – Drought, El Nino and Climate Change in Queensland over the last 200,000 years: The Lynch Crater Lake Record (**co-PI Anderson** with Wust, James Cook Uni. and Kershaw, Monash Uni.), Project ID# DP045151565, 300k, (about \$30k for Anderson).
- 2003 SJRWMD - Sediment nutrient characteristics and paleolimnological reconstruction of Lake Monroe, Florida, USA (SG452AA), **PI Anderson** with Gaiser and Scinto, \$131k.
- 2002 American Chemical Society – Petroleum Research Fund - South Florida Marine Stable Isotope Time Series: Understanding nitrogen and carbon isotopic signals from organic matter in modern systems with implications for geologic records (ACS PRF-38095-G2). **PI Anderson**, \$35k.
NSF Research Grant to Earth Sciences (EAR) – Geology and Paleontology – The Seagrass History of Florida Bay Reconstructed from Integrating Micropaleontological and Geochemical Proxies (EAR-0126024, **co-PI Anderson** with Collins, Jaffe, and Fourqurean). \$154k.

Provost's Office and FIU Foundation Summer Research Competition (2002) - A New Approach for Understanding Nitrogen and Carbon Cycling in the South Florida Marine System – Introducing the South Florida Marine Stable Isotope Time Series. **PI Anderson**, \$5k.

- 2001 Extension of NSF ATM-0086276, to continue the project.
- 2000 Grants-In-Aid Award from the Faculty Development Review Panel, College of Arts and Sciences, FIU. **PI Anderson**, \$1k.

NSF Research Grant to Atmospheric Sciences (ATM) - Paleoclimate Program - Isotope-Dendrochronological Investigation of Tropical Trees From Brazil: A New High-Resolution Paleoclimate Archive (ATM-0086276, **PI Anderson**). \$30k.

TEACHING

Courses Developed

- 2010 to 2011 **OCP 3002 Physical Oceanography**. This class is a new requirement for undergraduate majors in Geosciences and Marine Biology. It replaces a more lower level requirement of OCE 3014 Oceanography, which is introductory level, qualitative class.
- 2003 to 2004 **GLY 3882 Environmental Geology of the Florida Keys Workshop**. This workshop is a field based course that will be taught on location in the FL Keys. The students will be working from the Keys Marine Lab on Long Key, where the boats are located for the marine portion of the trip (outer reef and FL Bay).
- GLY 5195 Topics in Paleoclimatology**. This graduate class focuses on broad topics in paleoclimatology, including: climate models, Quaternary climates, dating methods, and pre-Quaternary climates.
- 2000 to 2001 **GLY 5266 Stable Isotope Biogeochemistry**. This graduate class focuses on understanding stable isotopic methods and approaches for understand biogeochemical cycles. Students from Biology, Chemistry and the Earth Sciences Dept. have enrolled for this class.

Courses Taught

- 2011-2012 OCE 3014 Oceanography
OCP 3002 Physical Oceanography
- 2010-2011 OCP 3002 Physical Oceanography
- 2009-2010 OCE 3014 Oceanography
GLY 5226 Stable Isotope Biogeochemistry
- 2008-2009 GLY 1010 Introduction to Earth Sciences
OCE 3014 Oceanography
- 2007-2008 GLY 5266 Stable Isotope Biogeochemistry
OCE 3014 Oceanography
GLY 3882 Environmental Geology of the Florida Keys
- 2006-2007 OCE 3014 Oceanography
GLY 4730 Marine Geology
GLY 3882 Environmental Geology of the Florida Keys
- 2005 to 2006 GLY 3882 Environmental Geology of the Florida Keys
GLY 5266 Stable Isotope Biogeochemistry
GLY 3030 Environmental Geology
- 2004 to 2005 GLY 3882 Environmental Geology of the Florida Keys
GLY 1010 Introduction to Earth Sciences
GLY 5195 Topics in Paleoclimatology
GLY 6910 Supervised Research

2004 to 2003	BSC 3669L UMEB Lab GLY 5266 Stable Isotope Biogeochemistry GLY 3039 Environmental Geology GLY 4910 and 6910 Supervised Research
2003 to 2002	BSC 3669L UMEB Lab GLY 3039 Environmental Geology (both Fall and Spring semesters) GLY 4910 and 6910 Supervised Research
2002 to 2001	GLY 5266 Stable Isotope Biogeochemistry GLY 3039 Environmental Geology GLY 4910 and 6910 Supervised Research GLY 5931 Graduate Student Seminar GLY 6931 Advance Graduate Student Seminar
2001 to 2000	GLY 5266 Stable Isotope Biogeochemistry GLY 3039 Environmental Geology GLY 4910 Supervised Research GLY 5931 Graduate Student Seminar

STUDENTS

Past Undergraduate Students

2009 to 2011	Greg Losada (Earth and Env. Dept., Undergraduate research assistant at the Stable Isotope Laboratory)
2008 to 2009	<u>Sara Fleming</u> (Marine Biology), Undergraduate research assistant at the Stable Isotope Laboratory.
2005 to 2007	<u>Carrie Rebenack</u> (co-supervised with R. Hickey-Vargas), Undergraduate work: Stable Isotope Analyses of OM from Lake Harney FL over the last Century. Sponsored by a NOAA ESRIP undergraduate internship.
2005 to 2006	<u>Oriana Perez</u> , Undergraduate work: Sedimentological analyses of cores from Lake Harney, FL and WCA 3b. Internship sponsored by NSF GEOSCOPE program. <u>Jonathan la Paz</u> (co-supervised with G. Draper), Undergraduate work: Thinsection and isotopic analyses of mangrove-seagrass-hard-ground from South Florida. Sponsored by NSF GEOSCOPE program.
2003 to 2004	<u>Rommy Lahera</u> , Undergraduate Work: Metal analyses of sediment from Lake Monroe, FL over the last 100 years. Sponsored by a NOAA ESRIP undergraduate internship. Now applying for an MS position at USF.
2003 to 2002	<u>Maria Camila Pinzon</u> , Undergraduate Work: Carbon Isotopic Investigation of Wetland Trees From the Florida Everglades. Sponsored by the FCE-LTER and UMEB program at FIU.
2001 to 2002	<u>Reena Hernandez</u> , Undergraduate Work: Carbon Isotope Composition From Slash Pine from Big Pine Key, FL (1950 to 2000). Supported as an undergraduate research assistant at the Stable Isotope Laboratory.

Past Graduate Students

2008 to 2011	Shauna Neilsen, MS student, Thesis: Sediment dynamics in a sub-tropical hyper-eutrophic lake system.
--------------	--

- 2003 to 2005 Bryan Carroll, MS student. Thesis: Stable Isotope Paleolimnological Investigation of Recent Sediments From Lake Monroe, FL. Completion Summer/05, defended thesis on July 26, 2005.
- 2001 to 2009 Samantha Evans, Ph.D. candidate. Dissertation topic: Carbon and Nitrogen Stable Isotope Patterns in Modern and Geologic Records from South Florida coastal Ecosystems. Finished Spring 2009.
- 2006 to 2009 Michelle Sanchez, MS student. Thesis: Nitrogen isotopes patterns in POM from Biscayne Bay. Finished Spring 2009.

Current Graduate Students

- 2012 to present Sarah Strand, MS student, Thesis: Sulfur isotopes across the coastal Everglades ecotone.
- 2011 to Present Amber Kiger, MS student, Thesis: Microbial DOC production and DIC patterns in Florida Bay.
- 2010 to present Annie Palya, Ph.D. student, Thesis: CRDS applications to TOC/DOC of near shore coastal systems of South Florida.
- 2007 to present Carrie Rebenack, Ph.D. student, Thesis: Carbon isotopes of Plants and OM as indicators of changes in hydroperiod from the Everglades Mash.

Graduate Thesis Committees

a. Within FIU:

- | | |
|----------------------------------|------------------------------------|
| Alyssa Dausman, Earth Sciences | Virginia Cornett, Biology |
| Anna Wachnika, Earth Sciences | Jed Redwine, Biology |
| Sonia Hernandez, Earth Sciences | Tiffany Gann, Biology |
| Alessandro Catenazzi, Biology | Jeffery Wozniak, Biology |
| Sreepat Jain, Earth Sciences | Daniel Gomez, Biology |
| Diana Johnson, Env. Studies | Virginia Walsh, Earth Sciences |
| Amanda Quillen, Biology | Caroline Peyer, Marine Biology |
| Clayton Williams, Marine Biology | Elaine Gaspar Fontes, Env. Studies |
| Luis Arroyo, Chemistry | Y. Xu, Chemistry |

b. Outside FIU

- Katherine Lamb, MGG, RSMAS, University of Miami
 Maria Camila Pinzon, Biology, University of Miami

Current Undergraduate Students

- 2012 to present Kim Weisenborn (Marine Sci. Program), Undergraduate research assistant at the Stable Isotope Laboratory.

SERVICE

Professional Service and Activities

- 2011 NSF Panelist, Major Research Instrumentation (MRI)/Ocean Technology (OT), May 23-24, Arlington, Virginia.
- 2006 NSF Panelist, Major Research Instrumentation (MRI)/Ocean Technology (OT), May 15-16, Arlington, Virginia.
- 2005 NSF Panelist, Major Research Instrumentation (MRI)/Ocean Technology (OT), May 16-17, Arlington, Virginia.
- 2003 Invited co-Participant/Presenter (with J.L. Teranes), Stable Isotopic methods and approaches in Lake Sediments, Frontiers in Limnogeology CUSO course at the Institut F. -A. Forel et Département de Géologie et Paléontologie, Section des Sciences de la Terre, Univeristy of Geneve (CH). Daniel Ariztegui (Uni Geneve) was Lead Organizer. October 6 & 7, 2003.
- co-Workshop Leader/Organizer (with S. Macko, N. Ostrom, and I. Anderson), Long Term Ecological Research Network All Scientist Meeting (LTER-ASM 2003) – New Methods in Stable Isotope Applications for Long Term Ecological Research, September 18-21, 2003, Seattle WA.
- Committee member, Rosentiel Award Committee, RSMAS, University of Miami, award to outstanding young ocean scientist.
- 2002 Chair of special session at Fall AGU meeting in San Francisco (w/ co-chair J.L. Teranes). PP08 Interpreting Climate Change From Isotopic Records of Precipitation.

Professional Affiliations

AAAS, AGU, and The Geochemical Society

Reviews for Journal Manuscripts (2000 to 2012)

Journal of Geophysical Research-*Atmospheres*, 5 reviews
Geochemica et Cosmochimica Acta, 3 review
Earth and Planetary Science Letters, 2 reviews
Quaternary Research, 1 review
Limnology and Oceanography, 1 review
Geology, 3 reviews
Journal of Paleolimnology, 2 reviews
Organic Geochemistry, 1 review
Chemical Geology, 1 review
International Association of Wood Anatomists (IAWA) Journal, 1 review
Plant, Cell and Environment, 1 review
Coral Reefs, 2 reviews
Applied Geochemistry, 1 review
Oecologia, 1 review

Proposal Reviews (2000 to 2012)

I have reviewed proposals for both the NSF and the EU Science Program.

Department Service

2012 to 2012 Graduate Committee

2011 to 2012 Curriculum Committee – member

2010 to 2011 Curriculum Committee – member
Physical Climatology Search Committee - member

2009 to 2010 Curriculum Committee - member

2008 to 2009 Curriculum Committee - member

2007 to 2008 Curriculum Committee - member

2006 to 2007 Curriculum Committee - member

2005 to 2006 Curriculum Committee - member

2004 to 2005 Curriculum Committee - member

2003 to 2004 Search Committee Chair, Atmospheric Sciences, Climatology Position.
Undergraduate Committee – member

2002 to 2003 Hydrology Search Committee – member
Undergraduate Committee – member

2001 to 2002 Graduate Seminar Series Organizer (both Fall and Spring Semesters). Secured College Funding for Series (~\$1,300).
Departmental Evaluation Committee – member

2001 to 2000 Graduate Seminar Series Organizer (both Fall and Spring Semesters). Secured College Funding for Series (~\$1,300).
Department Merit Criteria Committee – member
Supported Reena Hernandez’s application to the Hispanic Scholarship Fund, where she successfully received \$2,500 scholarship (she also was funded by the Stable Isotope Lab as an URA).

Arts and Sciences College Service

2011 to 2012 Chair of College Curriculum Committee– Arts and Sciences

2010 to 2011 Chair of College Curriculum Committee– Arts and Sciences

2009 to 2010 Chair of College Curriculum Committee– Arts and Sciences

2008 to 2009 Chair of College Curriculum Committee– Arts and Sciences

2007 to 2008 Chair of College Curriculum Committee– Arts and Sciences
College Curriculum Committee Member for Earth Sciences Dept.

2006 to 2007 Chair of College Curriculum – Arts and Sciences
College Curriculum Committee Member for Earth Sciences Dept.

2005 to 2006 College Curriculum Committee Member for Earth Sciences Dept.

2004 to 2005 College Curriculum Committee Member for Earth Sciences Dept.
Environmental Sciences Program Committee Member (organized departmental Environmental Sciences Tracks for Ph.D. program).

School of the Environment Exploratory Committee Member, college level committee charged with exploring different options for consolidating environmental research at FIU into a new School.

- 2003 to 2004 College Curriculum Committee Member for Earth Sciences Dept.
Environmental Sciences Program Committee Member
- 2002 to 2001 Search Committee Member for Hydrology Position at SERC
- 2001 to 2000 Environmental Scan Committee Member, part of the Year 2000 Plan for FIU.

University Wide Service

- 2012 to 2013 Boating Safety Advisory Board – member
Diving Safety Board - member
- 2011to 2012 A&S Representative to the University Curriculum Committee
Boating Safety Advisory Board - member
- 2010 to 2011 A&S Representative to the University Curriculum Committee
Boating Safety Advisory Board - member
- 2009 to 2010 A&S Representative to the University Curriculum Committee
- 2008 to 2009 A&S Representative to the University Curriculum Committee
- 2007 to 2008 A&S Representative to the University Curriculum Committee
- 2006-2007 A&S Representative to the University Curriculum Committee
