

MAST@FIU Internship

Job Summary

The Education Outreach team in the College of Arts Science & Education at the Biscayne Bay Campus (BBC) is seeking MAST@FIU Interns to join their team of professionals. The candidate will work directly with the Assistant Director on a variety of STEAM based Education Outreach projects and programs. Examples of duties include:

- Assisting with the development and delivery of STEAM based K-12 education and outreach programs.
- Assisting with on-campus living lab, touch tank and ecological monitoring projects.
- Overseeing the propagation of mangroves and other native plants in the CASE shade house.
- Planning and preparing presentations and activities for classrooms, student organization projects and the K-12 camp programs.
- Researching and writing articles for FIU@Home CASE News web series.
- Assisting with the facilitation of virtual labs, demos and community events.
- Entering data from ecological monitoring and restoration events.

This internship opportunity will have an employee supervisor guiding and mentoring the student throughout the experience. Student and Supervisor must review internship grading and expectations during a formal meeting at the beginning, midpoint and end of each semester to discuss and complete the MDCPS Student Evaluation/Grading forms.

By the end of the internship, student will have gained valuable practical experience, learned how to apply theoretical knowledge in practical settings, and experienced real life challenges and situations.
