

This semester, the Center for Academic Success (CfAS) is offering online tutoring via Zoom and in-person tutoring in GL 120 at MMC and AC1 160 at BBC in a wide variety of subjects. CfAS tutoring hours are Mondays-Thursdays 9am-8pm, Fridays 9am-5pm, Saturdays 12pm-5pm, and Sundays 3pm-8pm. Students can set up one-on-one appointments in four ways:

1. Call the CfAS Front Desk at 305-348-2441 (MMC) or 305-919-5927 (BBC),
or
2. Go in person to either the Front Desk in GL 120 at MMC or AC1 160 at BBC,
or
3. Use Panther Success Network (PSN) by going to go.fiu.edu/psn, logging in with their FIU username and password, clicking the "Schedule an Appointment" button at the top right of the page, and scrolling down to "Tutoring - Center for Academic Success." The directions on the website after that will help students finish setting up the appointment,
or
4. E-mail cfas@fiu.edu and include their name, Panther ID, and course name or code (for this course, either "Discrete Math" or "MAD 2104") in the e-mail message.

Students can sign up for one session per course at a time, but as soon as the tutoring session ends, they will be able to set up another appointment. The tutoring sessions begin at the top of every hour (for example, 9am, 10am, etc.) and last 50 minutes.

Additionally, CfAS can set up group tutoring appointments by request through the Front Desk. These sessions would also begin at the top of every hour and last 50 minutes.

Lastly, CfAS has a program called the Academic Success Plan (ASP). This program is for students who may wish to make improvements in managing their time or could use help with organization or study habits. Students in the ASP program are each assigned to a veteran tutor and meet weekly with the tutor to work on the aforementioned skills as well as the course material. If you would like more information about ASP's or if you would like to activate an ASP for Discrete Math or any other subject, you can contact the Academic Coach, Kiara Kumar, at ckumar@fiu.edu.

Please visit the CfAS website at cfas.fiu.edu to learn more about CfAS services. You can also contact the CfAS Front Desk at cfas@fiu.edu or the CfAS Mathematics Coordinator, Michael Carey, at mcarey@fiu.edu if you have any questions or for more information.
